

INDIVIDUAL INTEGRITY PROFILE (IIP)

- formerly known as Human Governance Profile (HGP)

INTRODUCTION

Individual Integrity Profile (IIP) formerly known as Human Governance Profile (HGP) is an online psychometric assessment platform that measures not only productivity, trustworthiness, dependability, and work ethics, but also the qualities required to thrive at the cutting edge of business.

IIP is a comprehensive solution based on extensive research in psychometrics and behavioural science. IIP meets internationally-accepted standards and was designed in accordance with recognised principles of good practice in psychometric testing.

Using cutting-edge assessment technologies, it assesses all the most important predictors of trustworthiness and ethical behaviour at work.

BENEFITS

This comprehensive instrument can help the organisations in:

- Talent acquisition
- On-the-job development
- Performance integrity evaluation
- Talent retention
- Organisational citizenship behaviour development

IIP is a good return of investment due to:

- It is a personality-based assessment to analyse strengths and rethink weaknesses.
- It improves productivity, efficiency and ethicality of employees and organisation.
- It promotes value based leadership for the benefit and well-being of the society.

METHODOLOGY

- Online psychometric assessment.
- Consultancy on individual or group result analysis to assist organisations in talent acquisition, work development, ethical work performance evaluation, and promotion of good corporate citizenship.

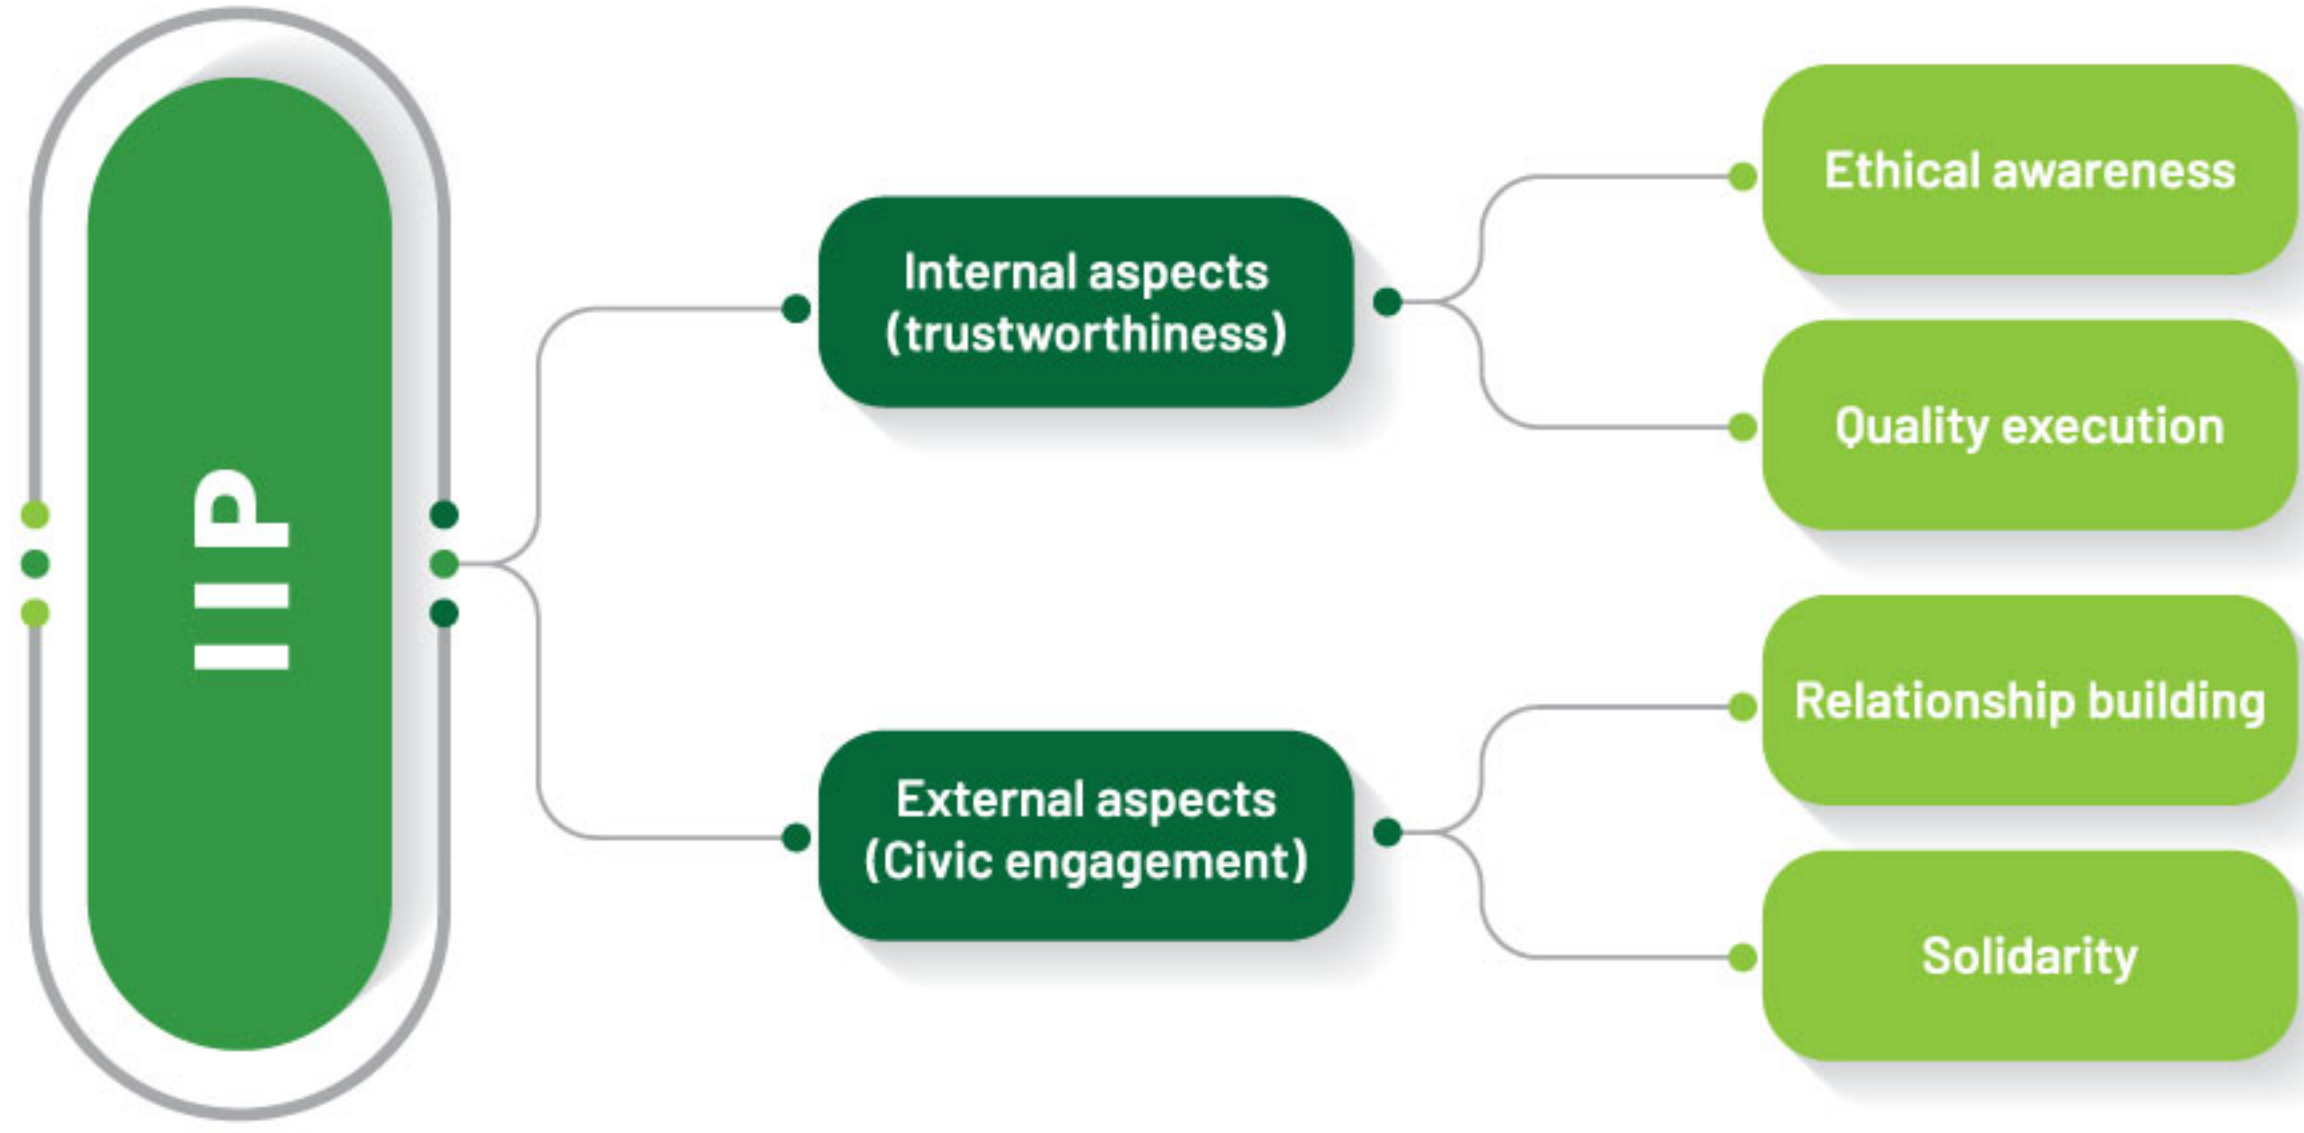

OUTCOME

- Employers will be able to identify productive and conscientious workers who will fulfil the demands of the ongoing Fourth Industrial Revolution.

IIP MODEL
